YOUR HISTORIES
of
NORTH OAKLAND

Sights, Sounds, & People from the Recent to the Deep Past

I think we have to remember that this community is built on Ohlone land and is sacred. The temescal creek, the shellmounds, and everything that makes it special were built over Indigenous lands. And they are still here. We also have to remember how this community was shaped by the atrocity of the Japanese internment.

Thanks for making history!
